Almost 3.4 million students were enrolled in state and land-grant universities in the fall of 1979, making up 29 percent of the estimated 11.7 million students attending all U.S. colleges and universities. The National Association of State Universities and Land-Grant Colleges (NASULGC) received responses to its tenth annual enrollment survey from 383 member campuses related to 139 institutions, a response rate of 96 percent of the membership. These responses showed a total enrollment of 3,378,389 students. The National Center for Education Statistics estimates that 11,669,429 students were attending all U.S. colleges and universities in the fall of 1979.

At the 356 campuses providing comparable data for 1978 and 1979, total enrollment rose 1.9 percent. Two-year comparisons by level show that enrollment rose slightly in all levels except graduate students, where it dropped 0.6 percent. Two-year comparisons by level and sex show that total female enrollment rose 3.3 percent more than total male enrollment rose, and female enrollment outpaced male enrollment at all levels. Women made the most substantial gain (9.2 percent) in the first-professional level. Male enrollment rose 0.5 percent overall, but dipped slightly in the unclassified, first-professional and graduate levels.

The Office of Communications Services of NASULGC used figures based on head counts of both full-time and part-time enrollment, and included extension students enrolled in courses for credit. OCS conducted a supplementary survey of extension enrollment, and added these figures to the total enrollment data that members reported to NCES for its Higher Education General Information Survey (HEGIS).

Table 1 below shows total enrollment by level for all NASULGC campuses participating in the fall 1979 survey.

SURVEY HIGHLIGHTS

The Sample--The survey was sent to 141 member institutions (399 campuses) that enroll students. Of these, 383 campuses related to 139 institutions responded. This is an institutional response rate of 98.6 percent and a campus response rate of 96 percent.

Comparable Campuses--Total enrollment increased 1.9 percent, from 3,244,705 to 3,307,765 at the 356 campuses that provided comparable data for 1978 and 1979. At other comparable campuses, undergraduate enrollment rose 2.6 percent, first-time freshmen rose 4.7 percent, unclassified rose 2.2 percent, and first-professional rose 1.2 percent. Graduate enrollment, however, dropped 0.6 percent.

Distribution by Level--The percentages of total 1979 enrollment for each level were: undergraduate, 75 percent; graduate, 14 percent; unclassified, 7 percent; first-professional, 3 percent; extension for credit (not included in HEGIS totals), one percent.

First-Time Freshmen--First-time freshmen rose 4.7 percent from fall 1978 to fall 1979 at 332 comparable campuses. In 1979 first-time freshmen made up 21.8 percent of the total undergraduate enrollment at 352 reporting campuses.

Distribution by Sex--Men accounted for 51.7 percent of the total enrollment at the 383 campuses that participated in the 1979 survey, while women accounted for 48.3 percent. There were 1,731,632 men and 1,617,384 women enrolled, plus an additional 29,373 extension students not categorized by sex. At comparable reporting campuses, female enrollment gained over male enrollment by the following percentages: total, 3.3 percent; undergraduate, 2.8 percent; first-time freshmen, 0.8 percent; unclassified, 6.5 percent; first-professional, 9.3 percent; graduate, 3.2 percent.

Distribution by Status--Full-time enrollment made up 72 percent of total enrollment, and part-time enrollment represented 28 percent of the total. In 1979 there were 2,409,937 full-time and 939,079 part-time students enrolled on 383 campuses.

Extension Enrollment--Degree-credit extension enrollment reported by 121 campuses in the OCS supplementary extension enrollment survey was 108,068, representing 3.2 percent of total enrollment. This year extension enrollment decreased at all levels except in the graduate level, which increased by less than one percent (0.3 percent).

TWO-YEAR COMPARISONS BY LEVEL SHOW ACROSS-THE-BOARD GROWTH EXCEPT FOR GRADUATE STUDENTS

Total enrollment rose 1.9 percent at the 356 campuses of state and land-grant universities providing comparable data for 1978 and 1979. Table 2 shows that other comparable campuses reported increases in all levels except the graduate level, which dropped 0.6 percent. Undergraduates increased 2.6 percent, first-time freshmen increased 4.7 percent, unclassified students increased 2.2 percent and first-professional students increased 1.2 per cent.

FEMALE ENROLLMENTS OUTPACE MALE ENROLLMENTS IN ALL LEVELS OVER LAST YEAR

Table 3 gives a two-year comparison by level and sex at comparable reporting campuses for fall 1978 and fall 1979. Table 3 shows that in terms of total enrollments at 356 comparable campuses, female enrollments grew 3.8 percent while male enrollments grew only 0.5 percent.

Female enrollment at comparable reporting campuses grew in all levels. Male enrollments increased in the total, undergraduate and first-time freshmen levels, but dipped in the unclassified, first-professional and graduate levels.

At comparable reporting campuses, female enrollments gained over male enrollments by the following percentages: total, 3.3 percent; undergraduate, 2.8 percent; first-time freshmen, 0.8 percent; unclassified, 6.5 percent; first-professional, 9.3 percent; graduate, 3.2 percent.

Table 4 shows an analysis of 1979 enrollment by level, sex and full-time/part-time status. Women increased their share of the enrollment, compared with 1978 figures, in seven of the ten categories. The other three were: (1) full-time, first-time freshmen women, which dropped 0.8 percent from 44.6 percent in 1978 to 43.8 percent in 1979, (2) full-time, unclassified women, which dropped 1.2 percent, from 8.5 percent in 1978 to 7.3 percent in 1979, and (3) part-time, first-professional women, which fell 0.2 percent, from 1.1 percent in 1978 to 0.9 percent in 1979.

Enrollment by level, sex and status at those campuses providing data for 1979 shows that women represented 48.7 percent of undergraduate enrollment; 50.0 percent of first-time freshmen; 55.7 percent of unclassified enrollment; 27.7 percent of first-professional enrollment; and 46.1 percent of graduate enrollment.

Last year's pattern of women dominating part-time enrollments in every level except first-professional continued in 1979, as did the pattern of men dominating full-time enrollments in every level.

GRADUATE LEVEL IS MOST BALANCED BETWEEN FULL-TIME/PART-TIME STATUS

Enrollments by status varied considerably in each level. In the undergraduate level, 80.3 percent of the 1979 enrollment was full-time (2,041,932 students) and 19.7 percent was part-time (499,940 students).

Unclassified enrollments were overwhelmingly part-time, making up 82.3 percent of the total (204,450 students). The remaining 17.7 percent of the total were full-time (43,996 students).

In the first-professional level, 97.3 percent of the total enrollment was full-time (89,050 students), and 2.7 percent was part-time (2,473 students).

Graduate enrollment was divided almost evenly between full-time and part-time students. Full-time graduate students made up 50.3 percent of the total (234,959 students), and part-time students accounted for 49.7 percent of the total (232,216 students).

EXTENSION ENROLLMENT BY LEVEL SHOWS UNDERGRADUATES HAVE 41.1 PERCENT OF THE TOTAL

Table 5 shows that 121 campuses reported a total of 108,068 students enrolled in extension courses for degree credit. Of these, information by level was not available for 368. Therefore the following distribution percentages are based on a total of 107,700: undergraduate extension enrollment, 41.05 percent of the total; unclassified extension enrollment, 34.12 percent of the total; graduate extension enrollment, 24.84 percent of the total.

EXTENSION ENROLLMENT DIPPED 4.6 PERCENT FROM 1978 AT COMPARABLE CAMPUSES

Table 6 shows a two-year comparison of extension enrollment at 117 comparable campuses. Extension enrollment dipped 4.6 percent, from 112,987 students in 1978 to 107,850 students in 1979. Table 6 also shows that extension enrollment dropped in every level except the graduate level. Undergraduate extension enrollment dropped 3.7 percent, as did unclassified extension enrollment, but graduate extension enrollment grew 0.3 percent.

SEVENTY PERCENT OF COMPARABLE CAMPUSES HAD ENROLLMENT INCREASES THIS YEAR

Approximately 70 percent (69.9 percent) of the 356 state and land-grant universities participating in the two-year enrollment comparisons reported increases in total enrollments from fall 1978 to fall 1979.

Of the 249 campuses that reported increases in total enrollments, 81 reported increases of less than 100 students; 117 campuses reported increases in the range of 101 to 500 students; 34 campuses reported increases in the range of 501 to 1,000 students; and 17 campuses reported increases of more than 1,000 students.

Of the 249 campuses, 186 reported increases in male enrollments and 277 reported increases in female enrollments. Eight campuses reported increases of more than 1,000 women from fall 1978 to fall 1979. These were: City University of New York, Staten Island Community College; Tennessee State University; Wayne State University; State University of New York, Suffolk County Community College; State University of New York, Nassau County Community College; University of Minnesota, Twin Cities; University of Kentucky, Center System; and Ohio State University, Columbus.

Table 7 shows the number of campuses reporting enrollment increases by level and by sex from fall 1978 to fall 1979.

TEN INSTITUTIONS, CAMPUSES WITH LARGEST ENROLLMENTS RANKED

State and land-grant universities have most of the campuses with the highest enrollments in the U.S. The growth of multi-campus institutions has resulted in many public higher education systems with extremely high enrollments.

NASULGC has ranked 1979 survey participants in two ways: (1) from the perspective of multi-campus institutions and (2) on a campus-by-campus basis. Tables 8 through 14 rank the ten largest reporting institutions and the ten largest reporting campuses by: total enrollment (Table 8); undergraduate enrollment (Table 9); graduate enrollment (Table 10); first-professional enrollment (Table 11); first-time freshmen enrollment (Table 12); female enrollment (Table 13); and extension enrollment for degree credit (Table 14).

[1]Extension enrollment is included in total figures.

Table 8 shows that all of the ten largest reporting institutions had total 1979 enrollments of more than 60,500, compared to 59,000 in 1978. The 1979 list of top ten institutions is exactly the same as the 1978 list.

Table 8 also shows that total enrollments at the ten largest reporting campuses in 1979 ranged from 63,715 to 35,555. The 1978 top ten range reported was 63,223 to 35,298.

The 1979 list of the ten largest reporting campuses differs from last year's list in two respects: the University of Illinois, Urbana-Champaign replaced Pennsylvania State University, University Park as number ten, and Arizona State University, Tempe and the University of Washington, Seattle switched places.

The top ten reporting institutions all had undergraduate enrollments of more than 44,000 in 1979, compared to 43,000 in 1978.

Seven of the campuses with the highest undergraduate enrollment are the same as those with the highest total enrollment (see Table 8), although they are not in the same rank order. The other three are: Pennsylvania State University, University Park (7), Texas A&M University, College Station (9), and Purdue University, West Lafayette (10).

Table 9 shows that all of the top ten campuses enrolled more than 25,500 undergraduates, compared to 25,000 in 1978.

Completing the list are Purdue University (6), the University of Puerto Rico (8) and Pennsylvania State University (10).

In 1979 first-time freshmen enrollments at the ten largest reporting institutions ranged from a high of 82,850 to a low of 11,004. In 1978 the top ten range reported was from SUNY's high of 69,370[a] to a low of 9,230.

Table 12 shows that six of the ten campuses with the largest first-time freshmen enrollments are the same as those with the highest total enrollment (see Table 8), although they are not in the same rank order. The other four are: Purdue University, West Lafayette (3), State University of New York, Erie Community College (5), State University of New York, Nassau Community College (7) and Rutgers University, New Brunswick (8).

In 1979 first-time freshmen enrollments at the ten largest reporting campuses ranged from a high of 8,292 to a low of 5,301. In 1978 the top ten range reported was from a high of 7,703 to a low of 5,104.

Table 14 shows that only one of the ten institutions with the largest extension enrollments for degree-credit appears on the list of ten institutions with the largest total enrollment (see Table 8). Of the 121 campuses that reported extension enrollments for degree credit in 1979, 20 had enrollments of less than 100 students; 52 campuses reported enrollments ranging from 101 to 500 students; 21 campuses reported enrollments ranging from 501 to 1,000 students; and 28 campuses reported enrollments of more than 1,000 students.

In 1979 extension enrollments for degree credit at the ten largest reporting institutions ranged from a high of 21,034 to a low of 2,471. In 1978 the top ten range reported was from a high of 20,077 to a low of 3,083.

In 1979 extension enrollments for degree credit at the ten largest reporting campuses ranged from a high of 17,463 to a low of 2,471. In 1978 the top ten range reported was from a high of 18,282 to a low of 2,594.
